Sarah Brightman, Colder Than Winter

It's colder than winter Right here in my heart Lord, I'm gonna miss her She's torn me apart I couldn't make you love me I couldn't give you any more It's colder than winter Since you closed the door It's colder than winter I'm freezin' inside And my tears won't be bitter Even though our love died I couldn't make you love me I couldn't give you anymore It's colder than winter Since you closed the door Every time the sun sets I shed another tear And the lonelier I get Wishing you were still here I couldn't make you love me I couldn't give you any more It's colder than winter Since you closed the door It's colder than winter Since you closed the door
