

Sarah Brightman, Rain

Give me your dreams and answers
I know my reply
There's only one chance for living
The clouds' in the sky

When sunlight burns you eyes
I know the children cry
In pain
Dawn comes up
I'm gonna learn you pain
And pray for rain
We need a chance to start again
Let it rain
I lie awake and feel the pain
Let it rain

I can't even think to reason
The world has gone mas
We're out on the land of Eden
We've blown what we had

There's only one hold back
One way for bad to stay
We know
Only WEATHER
We can hope to get
Is heavy rain
We need a chance to start again
Let it rain
I lie awake and feel the pain
Let it rain

So many try to start again
Let it rain
And nothing's gonna stop this pain
Let it rain (3x)
