

# Sasha Sloan, Hypochondriac

I used to smoke like a chimney  
Never took a vitamine in my life  
I abused my kidneys  
Knew i had 2  
So i didn't think twice  
Never ate breakfet  
Then i'd get stoned  
And eat too much  
I was kinda wreckless til fell in love

Now i call my doctor eevery day  
Since i met you something in me's changed  
Second that you called me yours  
I had soemthing worth living for  
Now i am scared of planes and heart attacks  
If i die i'll never get you back  
You made me a hypochondriack\*
