

Say Hi, Between the lines (Eurowizja 2017)

Who knows what can happen today
Sun will shine through anyway
Loyalty rather run away
I don't know you
But let's find the way

Lonely cold eyes
Lonely night
Coz we don't have to
Don't have to fight

You gonna try until it's over
Let's find another way
Please don't fight another ...
Let's read between the lines

Take easy
On farewell dance
We're only live once
We should be friends
Don't thing about how I
I hope you dream of me
As much as I want

Sometimes
People say
We can't live the same way

No, no, no
I don't wanna hear your words

You think, we're weak
Coz they think we're uncompleted turns

Once again
I just wanna hear your voice

You gonna try until it's over
Let's find another way
Please don't fight another ...
Let's read between the lines

You gonna try until it's over

I don't care what people say
let's try again

Let's find another way
Please don't fight another ...
Let's read between the lines
