Say Hi, Between the lines (Eurowizja 2017)

Who knows what can happen today Sun will shine through anyway Loyalty rather run away I don't know you But let's find the way

Lonely cold eyes Lonely night Coz we don't have to Don't have to fight

You gonna try until it's over Let's find another way Please don't fight another ... Let's read between the lines

Take easy
On farewell dance
We're only live once
We should be friends
Don't thing about how I
I hope you dream of me
As much as I want

Sometimes People say We can't live the same way

No, no, no I don't wanna hear your words

You think, we're weak
Coz they think we're uncompleted turns

Once again I just wanna hear your voice

You gonna try until it's over Let's find another way Please don't fight another ... Let's read between the lines

You gonna try until it's over

I don't care what people say let's try again

Let's find another way Please don't fight another ... Let's read between the lines
