

Schwarz Stein, The Alternation Of Generations - I

Such fragile, childish feelings
My past glittering in its scarlet film
The colors refuse to blend
As my voice recedes and fades

My cell to increase

Yowayowashii chisetsu na kanjou
Akaku nijimu kirameku kako mazuranu haishoku
Toonoku utagoe
My cell to increase

My pitiful genetics were raised in futility
My cell to increase

And what of my cells, loved as in a dream?
Isn't there any way left to save them?
My cell to increase

Muda ni sodatsu
Kanashimi no idenshi
My cell to increase

Zoushoku suru saibou wa
Kakusei ni kogareta
Sukuwareru koto wa
Mou akirameta no
My cell to increase

My pitiful genetics were raised in futility
My cell to increase

Drowning in my cultivated cells
My cell to increase

And what of my cells, loved as in a dream?

Muda ni sodatsu
Kanashimi no idenshi
My cell to increase

Zoushoku suru saibou ni afurete My cell to increase

Zoushoku suru saibou wa
Kakusei ni kogareta

I'm Tired
