

# Scream Maker, Prophet

We've come here to fight  
To win or to die  
The light that will lead us  
Is stronger than night  
We've got the faith  
We've got the steel, yeah!

And break! And blow! And tear asunder!  
Beware! No time to think and wonder!  
It's time we're gonna win!

And have no fear and shed no tear  
The vengeance is close, the vengeance is near  
The truth – we will protect!

We're coming like a storm, we'll crush tonight!  
With eyes full of hope, brothers side by side!

Kill the propeth  
False, False, False prophet  
Kill the propeth  
False, False, False prophet  
Kill the propeth  
Kill him now

I'm telling you it's something you shouldn't hide  
This hatred that consumes you is fair this time  
Follow the sign

And break! And blow! And tear asunder!  
Beware! No time to think and wonder!  
It's time we're gonna win!

We're coming like a storm, we'll crush tonight!  
With eyes full of hope, brothers side by side

We are  
Invading his fortess  
So cold and unloving  
Invading his fortes  
The false prophet sits and waits
