Sebastian Bach, By Your Side

So long my dear departed where did you go I can't believe you're gone and the lights go out so slow I'm missing you each morning days gone by Can I feel the longing to look you in the eyes

You know I'll never let you go You know I'll never hurt so bad And if it takes a thousand years I will be right there by your side

You know I'll never let you go When I lost you I was blind And everytime I catch me with tears I will be right there by your side

I feel you when you're watching From afar Too young to leave me standing I wonder where you are

The precious time we spent My fondest memories I'll hold on to the promise That you made to me

You know I'll never let you go You know I'll never hurt so bad And if it takes a thousand years I will be right there by your side

You know I never hurt so much When I lost you, I was blind And everytime I catch the tears You are right there by my side

I stare into his eyes
And then I see your face
A dying love inside
A love you can't replace
You're looking down with pride
And let me show what I can tell

So long my dear departed Where did you go? I can't believe you're gone and My life goes on so slow

You know I'll never let you go You know I'll never hurt so bad And if it takes a thousand years I will be right there by your side

You know I'll never let you go When I lost you I was blind And everytime I catch the tears You are right there by my side

You are right there by my side You are right there by my side
