

Seether, Goodbye Tonight

Show me the light with the meaning
Give me what I would not burn
Show me how to love without reason
Teach me what I still need to learn

And pour us both the drink my friend
Come here
And pour us both the drink my friend

And if I die tonight
Would it all make sense?
Would it all make sense?
And if I die tonight
Would the wind ship away at my soul forever?

When not the difference to you and me
I wonder why does it have
A little way this never (...) me
But I remember someone said

Behind, behind the (...)
We all (...)

And if I die tonight
Would it all make sense?
Would it all make sense?
And if I die tonight
Would the wind ship away at my soul forever?

In a world so complicated
Can you help me out?
We live a life so separated
Can you (...) me now

In a world so complicated
Can you help me out?
In a world so separated
Tell me what you want from me
Tell me what you wanna be

And if I die tonight
Would it all make sense?
Would it all make sense?
And if I die tonight
Would the wind ship away at my soul forever?
