

# Selena Gomez, Fun

this is just what the doctor ordered  
put a gold star on my disorder  
we've talked around every corner  
if I am looking at you and me  
we're on some kind of symmetry

I am a sensitive situation  
you're a hot and cold combination  
we both know we got complications  
if I am looking at you and me  
we're on some kind of symmetry

I try not to bother  
not to bother you  
but my kind of trouble  
likes you trouble too

can't stoip myself, it's true  
I like the way you move  
oh we got something in ths room  
can't make ithat up

but you like fun  
you look like fun

can we keep in on a first name basis?  
we could overcrowded each other's spaces  
you keep me higher that the meditation  
take me to different places  
let's face it  
I am getting impatient

try not to bother  
not to bother you  
but my kind of trouble  
likes you trouble too

can't stoip myself, it's true  
I like the way you move  
oh we got something in ths room  
can't make ithat up

but you like fun  
you look like fun
