

Sergio Mendes, If You Really Love Me

If you really love me
If you really love me
If you really love me, won't you tell me
Then I won't have to be playing around

You call my name, ooh so sweet
To make your kiss incomplete
When your mood is clear
You quickly change your ways
Then you say I'm untrue
What am I supposed to do
Be a fool who sits alone waiting for you

If you really love me, won't you tell me
If you really love me, won't you tell me
If you really love me, won't you tell me
Then I won't have to be playing around

If you really love me
If you really love me
If you really love me, won't you tell me
Then I won't have to be playing around

If you really love me
If you really love me...
(Repeat to fade)
