

# Sergio Mendes, What Do We Mean To Each Other

I'd rather know if you had turned the page  
If you go faster than I do  
Suddenly it's not so clear just what I am to you  
Am I friend, am I lover, do we still need each other  
When you touch me, when you touch me baby I can tell  
What do we mean to each other, am I friend, am I lover is it over now  
If this is it then why bother tell me where do we take it from here  
What do we mean to each other am I friend ,am I lover, is it over now  
Do you love me still or do you just mean well  
I can see clearly how im hurting you  
Every breath gives you a way  
All we go on separate roads has gone in the way.  
Am I friend, am I lover, do we still need each other  
When you hold me, when you hold me baby I can tell  
What do we mean to each other, am I friend, am I lover is it over now  
If this is it then why bother tell me where do we take it from here  
What do we mean to each other am I friend ,am I lover, is it over now  
Do you love me still or do you just mean well  
Time became a poison looking slowly on my home  
Screwing all the memories, Is it tearing us apart  
When you touch me, when you touch me baby I can tell  
What do we mean to each other, am I friend, am I lover is it over now  
If this is it then why bother tell me where do we take it from here  
What do we mean to each other am I friend ,am I lover, is it over now  
Do you love me still or do you just mean well  
What do we mean to each other, am I friend, am I lover is it over now  
If this is it then why bother tell me where do we take it from here  
What do we mean to each other am I friend ,am I lover, is it over now  
Do you love me still or do you just mean well  
Do you love me still or do you just mean well
