

# Shakira, Chasing Shadows

Sunrise blinded by the morning light  
Already dreaming up tonight  
And I know  
That it won't be long  
Oh, we can't hide  
From the love that burns this strong

But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love

But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love

Night time  
And I am back in your arms  
When all my dreams are brought to life  
And I know that it won't be long  
For we can't hide  
From the love that burns this strong

But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love

But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love

But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows

And when the night comes  
We will run from nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love
