

ShataQS, Die Free

Waking up from a coma to reality
Lost and sick , emptiness buried in disease
waving guns, spreading lies, spitting in a face
Selling a girl as a bag of rice in a human trade
Starving lives, broken hearts full of lost faith
hungry lions fighting until the end
The world's genocide over useless things
How long is it gonna take before we truly stand for something.

Ref:

I' m gonna be who I wanna be
Even if its gonna mean my life
I'm gonna die free.

The world is blind to a human tragedy
But where we trade minerals everyone can see
So unaware of what's going o o on
It's all mind control, it's all mind control
Dressed in gold poison spreads in the world of man
it's hard to deny We are paid slaves,
Creativity replaced by "buy and sell"
No thinking for yourself, no thinking for yourself

Ref:

I' m gonna be who I wanna be
Even if its gonna mean my life
I'm gonna die free.

Bridge:

Free your mind and take a breath
Detoxify from hatred
Whatever you give you're gonna get
So what say you now?
What say you now?

I' m gonna be who I wanna be
Even if its gonna mean my life
I'm gonna die free.

Outro:

My feet are burning but I'am walking ahead
And I am calling every woman and man
The time is coming to regain our strength
Thinking for yourself
