

Shawn Mendes, 24 Hours

All it'd take is 24 hours
Sign the check and the place is ours
It's a little soon but I wanna come home to you

I don't know how this will go
I promise that i'll love you so
I'll bet it all on me and you
I'll bet it all you're bulletproof

Let's throw away our backup plans
And people might not understand
Who cares about if they approve
I'd face them all to be with you*
