Shawn Mendes, 24 Hours

All it'd take is 24 hours Sign the check and the place is ours It's a little soon but I wanna come home to you

I don't know how this will go I promise that i'll love you so I';ll bet it all on me and you I'll bet it all you're bulletproof

Let's throw away our backup plans And people might not understand Who cares about if they approve I'd face tchem all to be with you*
