

# Shawn Mendes, Don't Be A Fool

You've got my heart  
But I can't let you keep it, babe  
Cause I won't be sure that I can stay  
Don't waste your time  
Trying to pull me in  
Cause I'm just a mess you don't wanna fix

Just promise me one thing that you won't forget  
But for now kiss me softly before I say

Don't be a fool  
And wait on me, darling  
I know that you don't wanna hear this  
But I'm always on a move  
Don't be a fool  
And say that you love me  
Cause you'll find a man  
Who will stand by your side  
And will be there for you

And just know that I do  
Oh, I really like you, babe  
And I wanna be there for you  
For the rest of your days  
But I know that you hurt  
If we keep on doin' this  
So I'm sorry to end this now  
But I know that it's for the best

Don't be a fool  
And wait on me, darling, yeah  
I know that you don't wanna hear this  
But I'm always on a move  
And don't be a fool, yeah  
And say that you love me  
Cause you'll find a man  
Who will stand by your side  
And will be there for you

I don't think you'll ever understand  
I don't think you'll ever understand  
I know that you don't wanna hear this  
But darling, please, don't be a fool

Oh, don't be a fool, yeah  
And wait on me, darling  
I know that you don't wanna hear this  
But I'm always on a move, yeah  
Just don't be a fool, yeah  
And say that you love me, girl  
Cause you'll find a man  
Who will stand by your side  
And will be there for you

Don't be a fool  
And wait on me darling  
I know that you don't wanna hear this  
Don't be a fool
