

# Shawn Mendes, Higher

I can't get much higher  
New York in the summertime  
Get close with the bottle of wine

Last year was a broken heart  
Last year was a broken heart  
Last year was a broken heart

Damn flip it around what a beautiful start  
You and me on the top of the roof  
Slow dance in the light of the moon

Never though it would get this far  
Never though it would get this far  
Never though it would get this far  
Wow, flip it around what a beautiful start

The drinks are getting better  
The view is looking nice  
As long as we're together  
No i can;t get much higher  
No i can;t get much higher  
Let's stay like this forever  
I'll kiss you every night  
As long as we're together  
No i can;t get much higher  
No i can;t get much higher

All eyes are looking at us  
But i can't stop falling in love

Always been the one that i want  
Always been the one that i want  
Always been the one that i want  
Wiw, look at us  
Now damn what have we done  
I almost can't believe it  
So please don't wake me if i am dreaming  
Whenever i am with you

The drinks are getting better  
The view is looking nice  
As long as we're together  
No i can;t get much higher  
No i can;t get much higher  
Let's stay like this forever  
I'll kiss you every night  
As long as we're together  
No i can;t get much higher  
No i can;t get much higher
