

Shawn Mendes, WHAT THE HELL ARE WE DYING FOR

Smoke in the air, the city's burning down
I wanna speak, but I don't make a sound
Locked in my mind, you're all I think about (Mm)
I wanna save us but I don't know how

If we don't love like we used to
If we don't care like we used to
What the hell are we dying for?
If it doesn't cut like it used to
If you're not mine and I'm not yours
What the hell are we dying for?

I see it in the news, I see it in your eyes, ooh
I try to let you go, then I choke, I change my mind
(Change my mind, ooh)
Let's face the truth, I'm terrified (Ooh, ooh)

If we don't love like we used to
If we don't care like we used to
What the hell are we dying for?
If it doesn't cut like it used to
If you're not mine and I'm not yours
What the hell are we dying for?

Living without you
Is not living at all

If we don't love like we used to
And we don't care like we used to
What the hell are we dying for?
If it doesn't cut like it used to (Doesn't cut)
If you're not mine and I'm not yours (I'm not yours)
What the hell are we dying for?

Living without you
Is not living at all
Living without you (Baby)
Is not living at all
So what the hell are we dying for?
