

# Shout Out Louds, Please Please Please

Long time ago

The times we had were so and so

It was the worst days of your life

So I called your home your so-called father was on the phone  
he wasn't easy to ignore

But we're all happy cause the streets they're always there for us  
and it's quite scary when you wake up in the same old clubs

It's getting darker and I know this time wasn't meant for us

So won't you please please please come back to me

But yesterday when i saw your eyes in a black haze

You didn't even know my name

So I walked on pretending that you still belong

but it will never be the same no more

But we're all happy cause the streets they're always there for us  
and it's quite scary when you wake up in the same old clubs

It's getting darker and I know this time wasn't meant for us

So won't you please please please come back to me

It's like a picture of a loved one in disguise or

it's like finding something pretty in a jar of lies and

if you want just hide your eyes behind your hair

but you can't see me then you can't find me anywhere

But we're all happy cause the streets they're always there for us  
and it's quite scary when you wake up in the same old clubs

It's getting darker and I know this time wasn't meant for us

So won't you please please please come back to me

Come back to me

Please please please

Please please please
