

# Shout Out Louds, Wish I Was Dead Pt. 2

I want to hear drums and my heart's a drum  
I guess we never know what to become  
Well I didn't know that this was such a problem  
It's gonna get better when we solve them

I try to try to lose my head  
But I wish wish wish that you were always here  
And I try to try to lose my head  
But I wish wish wish that I was dead

I'm on birthday cards and on a big trip  
If this wouldn't happen then I'd bite my lip  
But I didn't know that this was such a problem  
It's gonna get better when we solve them

And I try to try to lose my head  
And I wish wish wish that you were always here  
And I try to try to lose my head  
And I wish wish wish that I was dead  
But I didn't know that this was such a problem  
It's gonna get better when we solve them

Wa wa wa and I try to try to lose my head  
And I wish wish wish that you were always here  
And I try to try to lose my head  
And I wish wish wish that I was dead
