Shout Out Louds, Wish I Was Dead Pt. 2

I want to hear drums and my heart's a drum I guess we never know what to become Well I didn't know that this was such a problem It's gonna get better when we solve them

I try to try to lose my head But I wish wish wish that you were always here And I try to try to lose my head But I wish wish wish that I was dead

I'm on birthday cards and on a big trip
If this wouldn't happen then I'd bite my lip
But I didn't know that this was such a problem
It's gonna get better when we solve them

And I try to try to lose my head And I wish wish wish that you were always here And I try to try to lose my head And I wish wish wish that I was dead But I didn't know that this was such a problem It's gonna get better when we solve them

Wa wa wa and I try to try to lose my head And I wish wish wish that you were always here And I try to try to lose my head And I wish wish wish that I was dead
