

# Sia, Little Wing

I'm watching you  
My baby blue  
I'm watching you suffer  
And it hurts you  
I watch you lose  
Another sick lover

I hope you can hear me say  
Through all of your tears today  
That I know you'll be ok  
And I hope that my voice cuts through  
All of the pain in you  
I'm telling you what to do, so

Don't give up  
Keep trying  
I know soon you'll be flying  
Little wing  
My little wing  
I know you can't stop crying  
But tears dry up when you're flying  
Little wing  
My little wing

So take my hand  
I know you can  
It feels like a nightmare  
I know you ran  
But I know you can  
I'll always be there

I hope you can hear me say  
Through all of your tears today  
That I know you'll be ok  
And I hope that my voice cuts through  
All of the pain in you  
I'm telling you what to do, so

Don't give up  
Keep trying  
I know soon you'll be flying  
Little wing  
My little wing  
I know you can't stop crying  
But tears dry up when you're flying  
Little wing  
My little wing
