

# Sia, Soon We'll Be Found

Come along it is the break of day  
Surely now, you'll have some things to say  
It's not the time for telling tales on me

So come along, it wont be long  
'Til we return happy  
Shut your eyes, there are no lies  
In this world we call sleep  
Let's desert this day of hurt  
Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight  
Don't turn away it's just there's nothing left here to say  
Turn around I know we're lost but soon we'll be found

Well it's been rough but we'll be just fine  
Work it out yeah we'll survive  
We musn't let a few bad times dictate

So come along, it wont be long  
'Til we return happy  
Shut your eyes, there are no lies  
In this world we call sleep  
Let's desert this day of work  
Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight  
Don't turn away it's just there's nothing left here to say  
Turn around I know we're lost but soon we'll be found
