

# Sidewalks and Skeletons, HAUNT YOU [Interlude]

There she was, around your neck  
All she can touch is held together  
There she was, around your neck  
All she can touch is held together

There she is now, there she is now  
And yet we used to talk, used to talk  
All our discussion and yet  
Yet we see her

There she was, around your neck  
All she can touch is held together  
There she was, around your neck  
All she can touch is held together

There she is now, there she is now  
And yet we used to talk, used to talk  
All our discussion and yet  
Yet we see her
