

# Sigma, Until Tomorrow

Ride like the wind  
to the nowhere land  
Sliding away  
on the edge of the time

I see the stars come to me  
I hear your voice that call me

Words in the wind  
talk me about my faith  
Air on my face  
in this mystical night

I follow your voice in this silence  
Don't smother my hope again

I'm running in the night until tomorrow  
Flying on the road through this place  
Playing again, until tomorrow  
I'll find myself in this way

Mechanical  
music beats on me  
Moonlight on the lake,  
the blur of landscape

I've seen this place whenever  
I'll keep this faith forever

I'm running in the night until tomorrow  
Flying on the road through this place  
Playing again, until tomorrow  
I'll find myself in this way

On the wings of destiny  
I try to back again, again

[SOLO]

I've seen this place whenever  
I'll keep this faith forever

I'm running in the night until tomorrow  
Flying on the road through this place  
Playing again, until tomorrow  
I'll find myself in this way  
Ride in the night until tomorrow  
The sun starts to rise,  
we will run again  
We will ride until daylight
