

# Sirenia, Insania

Deep in the dungeons of my minds affliction  
War-ridden rage against decline and addiction  
There's no relief, no hope, no benediction  
Am I my greatest fiend in life?  
Deep in the darkness of my hearts infliction  
Forever I'm bound to eternal contradiction  
Falter towards the final submission  
I am my greatest fiend in life

Insanity consumes my mind  
Some might say I lost the line  
And I don't claim to contradict it  
Some day you might realize  
That you are just the next in line

Walk through the valleys of my self deception  
Deep in the darkness of this life's rejection  
There is no hope, there's no resurrection  
Am I my greatest fiend in life?  
Faltering lost and blind through insanity  
Broken and battered by this life's profanity  
I'm only driven by my own mortality  
I am my greatest fiend in life

Insanity consumes my mind  
Some might say I lost the line  
And I don't claim to contradict it  
Some day you might realize  
That you are just the next in line

As time pass by  
Insanity consumes our minds  
We can't deny  
We're all pawns in the game of life

Insanity consumes my mind  
Some might say I lost the line  
And I don't claim to contradict it  
Some day you might realize  
That you are just the next in line

As time pass by  
We fade into the endless night  
We can't deny  
We're just mortals awaiting to die
