

# Slipknot, Prelude 3.0

I don't know why...  
...I never told you  
I don't know why...  
...I never tried

When we shed these bitter skins again

All the reasons come to life  
But now it's over..  
Now it's over  
Now it's over  
Now it's over

I don't know why  
You never asked me  
And I don't know why  
You never cared

When we hide these little sins again

All the reasons  
Have to die...  
But now it's over  
Now it's over  
And now it's over  
And now it's over  
And now it's over! [x4]

No!
