

Slipknot, Prosthetics

Even if you run... I will find you
I decided I want you
Now I know...I NEED
If you can't be bought, tougher than I thought
Keep in mind - I am with you
Never left out fate, can't concentrate
Even if you run...
YOU WILL BE MINE!
Ah, fucking you will be mine!
Ah, fucking you will be mine!
Ah, fucking you will be mine!
I FOUND YOU
Leanin' out of an open window
You laughed, our fingers clenched
Too perfect, far too careless
I couldn't help myself - I just took you
DAMMIT MAN I KNEW IT WAS A MISTAKE (You brought it outta me)
Better make yourself at home
You're here to stay
You won't bother me...If you let me bother you
All the doors are locked, all the windows shut
KEEP IN MIND - I watch you
Never leave my side, never leave me, fucker
Even if you run
What the fuck is different? Man, I can't believe I'm doin' this
DAMMIT MAN I KNEW IT WAS A MISTAKE (You brought it outta me)
