

Sloan, Can't You Figure It Out?

Do you remember
When October disappeared in a flash?
And by December
Reluctantly we live in the past

Well I had to go
You see the sign said so
Well no title comes to mind
Don't you ever have to make up your mind

Can't you figure it out? Yeah
Figure it out, yeah

So orchestrated
Divinely put together far in advance
You're underrated
Appearance at the Halloween dance

So we meet at last
Before the moment passed
Staying up till half past two
Writing this song for you

Can't you figure it out? Yeah
Figure it out, yeah
Figure it out, yeah
Figure it out, yeah
Figure it out

An invitation like a spell's been cast
Now I'm under and I'm tied to the mast
Where I'll be adrift at half past three
Dreaming of the melody

Can't you figure it out? Yeah
Figure it out, yeah
Figure it out, yeah
(So orchestrated)
Figure it out, yeah
(You're underrated)
Figure it out, yeah
(So orchestrated)
Figure it out
