

Sloan, Friendship

Jolene

You were the best friend I ever had
It's beyond me how you could go and treat me oh so bad
Somebody get me a doctor, yeah

Who is your one true friend
Who is your one true friend

You're jealous and it's all because of one thing
You know that you'll never have
And I don't really care if you can hurt me
I'm going to take as much as I can grab

Who is your one true friend
Who is your one true friend

In the end you'll have to come to your own defense

Jolene

You were the best friend I ever had
You're jealous and it's all because of one thing
Yeah yeah yeah
And I don't really care if you can hurt me
Yeah yeah yeah
In the end your one true friend has to come to your defense
