Sloan, G Turns To D

These songs are all about you
And I'm tellin' everyone I'm doin' fine without you
I hurt you but I helped you
You may think I've a lot of nerve
But I deserve some credit
Or at least an edit
Take out the part that breaks my heart
And makes me sound uncaring
If you eliminate the swearing
Then I could show my mother
That you can go from one chord to another

G will turn to D You'll turn to me And you'll say You have done me wrong I wrote these songs about it

She's aware it's all been done before It's another song in this key Yeah but this one's about me That all the validity she needs Her criticism's brutal But I don't really mind Yeah, she's put it out on vinyl But it's pretty hard to find, but you'll hear

G will turn to D You'll turn to me And you'll say You have done me wrong I wrote these songs about it

I wish I'd never taught her how to play
I knew she'd get me I should have known
Now her hands are on the fretboard
In an unfamiliar way
And it's tellin' me
She's aware it's all been done before
It's another song in this key
Yeah but this one's about me
I may not wanna hear the words to

G when put with D
But if you take what you're shown
Learn on your own
Then everything you do
Belongs to you
But know that you are on your own

On your own
