

# Sloan, I Can't Sleep

I can't sleep  
Even though I want to  
My nerves are shot  
Right between plenty of highs

I can't sleep  
I'm always looking for you  
I'm digging in deep  
Way beyond the matter of  
What we keep  
And how we gotta let it all go

I can't sleep  
Even if I try to  
See all the sheep  
Demanding my attention  
I can't sleep  
I think I'm gonna let it all go
