

Sloan, Rest Of My Life

I started thinking about the rest of my life
I found myself just looking out for trouble and strife
Someone with whom I spend the rest of my days
But if I ever said I wasn't set in my ways
Then I guess you caught me lying to myself
What kind of fool doesn't think about it
What kind of fool doesn't think about it
You have to be a fool not to think about it

Am I
Gonna settle down ever gonna be
Someone who has to take the rest of my life
to settle down
Then I guess you caught me lying to myself
Go make a man out of me

One thing I know about the rest of my life
I know that I'll be living in Canada
I know I said I'll share the rest of my days
But I was only going through a phase

Am I
Gonna settle down ever gonna be
Someone who has to take the rest of my life
to settle down
Then I guess you caught me lying to myself
What kind of fool doesn't think about it
What kind of fool doesn't think about it
You have to be a fool not to think about it

Am I gonna settle down ever gonna be
Someone who has to take the rest of my life
Am I gonna settle down ever gonna be
Someone who has to take the rest of my life to settle down
Then I guess you caught me lying to myself
Am I gonna settle down ever gonna be
Someone who has to take the rest of my life to settle down
Then I guess you caught me lying to myself
