

Sloan, The Rest Of My Life

I started thinkin' bout the rest of my life
I found myself just lookin' out for trouble and strife
Someone with whom I'd spend the rest of my days
But if I ever said I wasn't settin' my ways
Well then I guess you caught me lying to myself
What kind of fool doesn't think about it (x2)
You'd have to be a fool not to think about it

Chorus - Am I
Gonna settle down
Am I gonna be
Someone who has to take the rest of my life
To settle down
Well I guess you caught me lying to myself)
We'll make a man outta me
One thing I know about the rest of my life
I know that I'll be living it in Canada
I know I said I'll share the rest of my days
But I was only going through a phase

Chorus - Am I
Gonna settle down
Am I gonna be
Someone who has to take the rest of my life
To settle down
Well I guess you caught me lying to myself
What kind of fool doesn't think about it (x2)
You have to be a fool not to think about it

Am I
Gonna settle down
Am I gonna be
Someone who has to take the rest of my life

(x2 Am I
Gonna settle down
Am I gonna be
Someone who has to take the rest of my life
To settle down
Well I guess you caught me lying to myself)
