

Smash Into Pieces, Flow

Couldn't stop, couldn't let go
Never knew how to take it slow
Couldn't live with a halo
Never wanted a life below

I love the darkness when we come together
You set the fire in me

Burn away
This feeling in my bones
Like an never ending flow
Tidal waves
I'm staying in my zone
Like an never ending flow
Burn away
Like an never ending flow

Going in to a heatwave
Coming out with a brand new soul
Overdrive in the membrane
And I don't wanna take control

I love the darkness when we come together
You set the fire in me

Burn away
This feeling in my bones
Like an never ending flow
Tidal waves
I'm staying in my zone
Like an never ending flow
Keep chasing the feeling
I can't get enough
Vibrating right through my veins
Burn away
Like an never ending flow

I feel the darkness when we come together
I can't get out of this never ending flow

Burn away
This feeling in my bones
Like an never ending flow
Tidal waves
I'm staying in my zone
Like an never ending flow
Keep chasing the feeling
I can't get enough
Vibrating right through my veins
So burn away
Like an never ending flow
