

Snakehips, Summer Fade (ft. Anna of the North)

watch the summer fade away
watch the summer fade away
if you find somebody
baby I don't wanna know
if you love somebody
never let
never let them go

what you gonna do
where you gonna go
when nothing gets you in the mood
I know I should be smiling while the sun is shining
everybody's feeling good
I need some times
you need some times
and times all we have to lose
I don't think I can take it

if you find somebody
baby I don't wanna know
if you love somebody
never let
never let them go

what you gonna do
where you gonna go
when nothing gets you in the mood

watch the summer fade away
I need some times
you need some times
and times all we have to lose
I don't think I can take it

if you find somebody
baby I don't wanna know
if you love somebody
never let
never let them go
if you find somebody
baby I don't wanna know
if you love somebody
never let
never let them go
