

SOHN, Signal

Signal wave across the water for me
Let me know that you'll be waiting ever for me
I've been traveling
Waiting for a moment of peace
These stormy weathers have got me thinking of how I want it to be

Signal
Light a thousand fires under me
Give me no doubt
That I'm the one who never has to leave
I've been divided
Time and time again you keep the peace
Give me shelter
Let me be the man I wanted to be
