

Somersault, Freezing

It's easy killing my fields
In weary times I'm not strong enough
To see me without shield
Can't walk like you always straight

I don't feel anything
I need to sleep

Cause Baby, I'm freezing under my skin
A crack is growing inside of me
I'm freezing without a dream
Don't want you to save me, save me at all

Steel is bound on my knees
I'm better drowning now than turning around
I'm feeding the demons in me
Please come and shout out loud: Baby you're all so wrong

I don't need anything
I need to sleep

Cause Baby, I'm freezing under my skin
A crack is growing inside of me
I'm freezing without a dream
Don't want you to save me, save me at all
