

Somersault, Passing By

I'll die when you are fading out time in my mind
Meanwhile I ain't waiting and waiting in vain for one single sign
I could see that all in me is passing by
Passing by
To show you the way I am
To show you my way

Goodbye for trading my life just in time
My kite may fly out of sight till I've been over you
I could see that all in me is passing by
Passing by
To show you the way I am
To show you my way
