

# SPADA & ELEN LEVON, Cool Enough

Roll up, take a puff  
Never ever get enough  
Shades on, hays on  
Baby, are we cool enough  
Face up, make-up  
Making all the boys stop  
Sweet talk, cherry pop  
Oh yeah, this is all we've got.  
She's been a bad bad girlfriend  
Now she wants to try it all out,  
And there's no stopping her now, now now

I, I, I, I, I just wanna lose my mind  
Just for this one night  
Flying high, 'cause we only got one night  
Baby, are we cool enough?

Need sucks, pulled back all the way  
Daddy's got credit card,  
Chilling with the green stuff  
Get enough time and cough  
Maybe you should take that off  
Wasted, fading now everybody's tired up

I, I, I, I, I just wanna lose my mind  
Just for this one night  
Flying high, 'cause we only got one night  
Baby, are we cool enough?

We've been real real bad now  
Though we wanted try it all out  
Do we ever stop now?  
Baby, are we cool enough?  
Oh, why should we ever stop  
Oh, we're never gonna stop  
Turned out for what?!

Take me away away  
Need my escape escape  
Take me away away  
Need my escape escape  
Baby, are we cool enough
