

# SPADA, You & I (Ft. RICHARD JUDGE)

Take a little bit of me if you go walking  
Take a little bit of peace if you see red  
Take a little bit of time and we can drink this out  
There's a time and there's a place, for this to end

Don't let up come on don't let go  
Don't let up come on take me whole

I Wanna see your eyes on an endless sky, only you and I  
Know the way we rise to the highest heights, only you and I

Only you & I  
Only you & I

Take a little bit of love if you go turning  
Keep a little bit of life within your soul  
Someone's always got the drugs to keep you smiling  
There's a time and there's a place to lose control

Don't let up come on don't let go  
Don't let up come on take me whole

I Wanna see your eyes on an endless sky, only you and I  
Know the way we rise to the highest heights, only you and I

Don't let up come on don't let go  
Don't let up come on take me whole

I Wanna see your eyes on an endless sky, only you and I  
Know the way we rise to the highest heights, only you and I

Only you & I  
Only you & I
