

Stefan Eli, trip to the stars (stripped)

let's get lost
in the sky
and we're still young
but just tonight
and we could live whit the stars
if you don't think that it's too far

is it too far for you?
is it too far for you?
would you come whit me on a trip to the stars
or is it too far for you?

I just lost my mind but you stay on it still
you say you won't let go but I still know you will
I heard what you said bur you're not in love whot me
bur I am in love with you and I am scared that you'll leave

you could make me bleed right now
and could you make me feel somehow/
will you come whit me on a trip to the stars
or is it too far for you?

I've been way to numb
I just can't feel a thing
I saw you leave abd you were walking out whit him
but I's alright cause I am no good for you at all
they got me and I think it's not long till I fall

you could make me bleed right now
and could you make me feel somehow/
will you come whit me on a trip to the stars
or is it too far for you?

you could make me bleed right now
and could you make me feel somehow/
will you come whit me on a trip to the stars
but is it too far for you?
