Stefania, LAST DANCE (Grecja, Eurowizja 2021)

My heart was born a radical Electric and dynamical I've never listened to the remedies With no forevers, no eternities

Holding on beyond the night For a shadow that feels right Holding on beyond the night To you

If the dreams we made
Are made of fire
I would give a life just to live the dream again
If our hearts are hanging on a wire
Let's forger the world below
And dance until the end

Let's dance Our last dance Rocking romance This ain't our last dance

Let's dance

Holding on beyond the night For a shadow that feels right Holding on beyond the night To you

If the dreams we made
Are made of fire
I would give a life just to live the dream again
If our hearts are hanging on a wire
Let's forger the world below
And dance until the end

Let's dance Our last dance Rocking romance This ain't our last dance

Let's dance This ain;t our last dance
