

Stefania, SUPERG!RL

Keep the phone booth, don't need a super car
No x-ray vision to show them who we are
I got the power, climb up the tower
Save all humanity on zero hour

Nothing can stop me
Nobody can hold me down
Standing in the light
It's a new world
Let me be your supergirl
Nothing can stop me
Nobody can hold me down
Fighting in the dark over true love
Let me be your supergirl

I am your supergirl
Fighting from the heart

I am your supergirl
In this crazy world
I am your supergirl
Fighting from the heart

There;s no Wonder it takes a woan
To be a hero more than a human
Tooverflow your heart with clectricity
Find through the shadows your true identity

Nothing can stop me
Nobody can hold me down
Standing in the light
It's a new world
Let me be your supergirl
Nothing can stop me
Nobody can hold me down
Fighting in the dark over true love
Let me be your supergirl

I am your supergirl
Fighting from the heart

I am your supergirl
In this crazy world
I am your supergirl
Fighting from the heart
