

Stereophonics, Caught By The Wind

Coz every words
don't play by the rules
from mouth to ears
anything's possible

set them needle you down
take you back to the start
when do we loose
just how free we are

help yourself
do what you want
Caught By The Wind
believe you can fly
celebrating everything
so back on your roof
to watch aero planes
believe you can life
forever without death

every chain got a broken link
jump off the boot
you can swim not sink
the swallow doubt through to the summer nights
something beautiful morning just come back

help yourself
do what you want
Caught By The Wind
believe you can fly
celebrating everything
so back on your roof
to watch aero planes
believe you can life
forever without death

cause
it's not over
it's never over
it's always time to change
and star again today
right now!

Coz every words
don't play by the rules
from mouth to ears
anything's possible

Caught By The Wind
believe you can fly
celebrating everything
so back on your roof
to watch aero planes
believe you can life
forever without death
