

Steve Kilbey, Empire

Aren't you tired, aren't you sleepy (never going nowhere)
Can't you see what's wrong with you (comes with someone)
I am summer, gonna crush us (never going nowhere)
Change our skin, leave us ashes

I just wanna know
How long you're going to keep me

Locked out of your empire

Dancing pretty spins my mind (never going nowhere)
Racing into steals my time (comes with someone)
In the action, breaking down (never going nowhere)
Moving lightly and never ending
