

Stevie Wonder, Hold Me

Hold me darling hold me
And I'll always be your, be your guy
Closer, baby come closer
Let me be the one that loves and be by your side

Why should you be lonely when I need you so
Give my arms a chance I know I'll never let go
So hold me, baby hold me
Say you'll never let me go

Why should you be lonely when I need you so
Give my arms a chance I know I'll never let go
So hold me, baby hold me
Say you'll never let me go

You know I love you so
I'll never-never let you go
I'll never let you go
Oh baby-baby, hold me
Why should we be apart
I'll never-never let you go
