

# Stevie Wonder, My Love Is On Fire

Look at how they stop and stare  
As if they've never seen a heart in love  
And though I see them I don't care  
Cuz, I'm too busy thinking bout our love  
Thinking about that each and every morning  
I wake up to that love glow in your eyes  
And though it seems I'm hooked on this fixation  
I will not stop my daydreaming  
Until my nights are true with you  
Ooh baby, my love is on fire  
Ooh baby, my heart is on the wild  
Ooh baby, I'm burning with desire  
I want to feel your love  
I need to feel your love mixed with mine  
Listen at me call your name  
As if you're witness to my every word  
And though it seems sometimes insane  
Something within me tells me they'll be heard  
So I wait so patiently the moment  
When my love fantasies will come to life  
And all I need from you is confirmation  
Then I'll be living truth, those moments  
That I long with you  
Ooh baby, my love is on fire  
Ooh baby, my heart is on the wild  
Ooh baby, I'm burning with desire  
I want to feel your love  
I need to feel your love mixed with mine  
On flute, Hubert Laws  
And all I need from you is confirmation  
Then I'll be living truth, those moments  
That I long with you  
Ooh baby, my love is on fire  
Ooh baby, my heart is on the wild  
Ooh baby, I'm burning with desire  
I want to feel your love  
I need to feel your love mixed with mine  
Ooh fire  
Ooh fire Ooh fire  
I want to feel your love  
Feel your love mixed with mine  
Can't cha feel the fire burning?  
Can't cha feel the pulsation of my heart?  
Can't cha feel the fire burning?  
Yeah yeah, mixed with mine
