

# Stratovarius, In My Line of Work

You deserve everything  
Everything that you need  
And all that you long for

But I, I'm rarely around  
Every train feels outbound  
I wish I could give you so much more

I must roam  
Follow the road I've chosen  
Leave our home  
The land is dark and frozen  
Night by night  
You're still in my mind  
Everything I must do  
Is your burden too

Still the road goes on and on  
We just have to play along  
Days are lonely, nights long  
In my line of work

This is how the story goes  
Highest highs and lowest lows  
Home is never too close  
In my line of work

Here the rules don't apply  
Another town passes by  
New faces, new strangers

And you could use someone new  
Someone better than me  
But I still hope you will be waiting

I must roam  
Follow the road I've chosen  
Leave our home  
The land is dark and frozen  
Night by night  
You're still in my mind  
Everything I must do  
Is your burden too

Still the road goes on and on  
We just have to play along  
Days are lonely, nights long  
In my line of work

This is how the story goes  
Highest highs and lowest lows  
Home is never too close  
In my line of work
